Junior Achievement USA®

Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills.

In this document, Junior Achievement programs are correlated to the Colorado 2020 Academic Standards for Social Studies, the Personal Financial Literacy Expectations and the Colorado Essential Skills. This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed. When Extended Learning Opportunities within the curriculum directly support an academic standard it is indicated by the letters ELO superscripted next to the standard.

JA Middle Grades Programs
